

Xian Wu

Princeton University & NOAA Geophysical Fluid Dynamics Laboratory (GFDL)

201 Forrestal Road, Princeton, NJ 08540

Email: xw2794@princeton.edu; xian.wu@noaa.gov Website: <https://www.xianwuclimate.com/>

Education

- Ph.D. Geological Sciences (Research area: Climate Dynamics) 2015–2020
The University of Texas at Austin
Dissertation: “*Duration of El Niño and La Niña Events: Mechanisms and Multiyear Predictability*” Advisor: Yuko Okumura
- B.S. Atmospheric Sciences (Climatology) 2011–2015
Nanjing University of Information Science and Technology (NUIST)

Academic Appointments

- Postdoctoral Research Associate, Princeton University & NOAA GFDL 03/2023–present
Project: “*Understanding Equatorial Pacific Climate Processes via Hierarchical Coupled Modeling*” Mentor: Andrew Wittenberg
- ASP Postdoctoral Fellow, National Center for Atmospheric Research (NCAR) 09/2020–03/2023
Project: “*Decadal Predictability and Prediction Skill in the Pacific Ocean*”
Mentors: Stephen Yeager and Clara Deser
- Graduate Research Assistant, UT Austin 08/2016–08/2020

Research Interests

Large-scale ocean-atmosphere interaction, climate variability and change, climate predictability

Fellowships and Awards

- NCAR Advanced Study Program Postdoctoral Fellowship 2020
- UT Austin, Institute for Geophysics Graduate Fellowship 2020
- Outstanding Student Presentation Award, American Geophysical Union Fall Meeting 2019
- UT Austin, Institute for Geophysics Entry Fellowship 2015–2016
- Excellent Honor Graduate Award, NUIST 2015
- First-Class Scholarship, NUIST 2011–2015

Discuss.* <https://doi.org/10.5194/esd-2023-36>, *in review*

In preparation:

Wu, X., A. T. Wittenberg, F. Zeng, B. G. Reichl, and F. Lu: Understanding the equatorial Pacific cold tongue bias via hierarchical coupled modeling, *in preparation*.

Wu, X., S. G. Yeager, C. Deser, et al., 2023: High tropical Pacific decadal predictability dominated by oceanic Rossby waves, *in preparation*.

Lawman, A., C. Sun, **X. Wu**, et al. 2023: Tropical rainfall changes in response to a weaker AMOC: Mechanisms and an integrative model-data comparison for Heinrich Stadial 1, *under internal review by co-authors*.

Presentations

Invited:

“Volcanic forcing degrades multiyear-to-decadal prediction skill in the tropical Pacific”, EPESC/DCPP workshop on integrated attribution and prediction, 03/2023 (Talk).

“Predicting the duration of La Niña events using the CESM multiyear forecast systems”, WCRP the second chapter of the Explaining and Predicting Earth System Change webinar series on ‘Triple La Niña’, virtual, 11/2022.

“Tropical Pacific decadal predictability: the role of volcanic forcing and ocean initialization”, GFLD seminar series, virtual, 10/2022.

“Duration of El Niño and La Niña Events: Dynamics and Multiyear Predictability”, American Geophysical Union Fall Meeting, virtual, 12/2020 (Poster).

Others:

“Pinpointing the sources of equatorial Pacific SST biases in a coupled GCM”, Ocean Sciences Meeting 2024, upcoming 02/2024 (Talk).

“Understanding the equatorial Pacific cold tongue bias via hierarchical coupled modeling”, American Geophysical Union Fall Meeting, upcoming 12/2023 (Talk).

“Volcanic forcing degrades multiyear-to-decadal prediction skill in the tropical Pacific”, Decadal Climate Variability and Predictability Webinar Series, 05/2023 (Talk).

“Predictability of tropical Pacific decadal variability and associated oceanic mechanisms”, CESM Working Group Meeting 2023, Boulder, CO, 02/2023 (Talk).

“Volcanic forcing degrades multiyear-to-decadal prediction skill in the tropical Pacific”, American Meteorological Society 103rd Annual Meeting, Denver, CO, 01/2023 (Talk).

“Duration of El Niño and La Niña events: dynamics and multiyear predictability”, ICTP ENSO Summer School, Trieste, Italy, 08/2022 (Talk).

“Two-year dynamical predictions of ENSO event duration during 1954-2015”, CLIVAR Societally-Relevant Multi-Year Climate Predictions Workshop, Boulder CO, 03/2022 (Talk).

“The effect of volcanic eruptions on multiyear-to-decadal predictions in the tropical Pacific”, CESM Working Group Meeting 2022, virtual, 02/2022 (Talk).

“High prediction skill of tropical Pacific decadal climate in a decadal prediction system without volcanic forcing”, Ocean Sciences Meeting 2022, virtual, 03/2022 (Talk).

“High prediction skill of tropical Pacific decadal climate in a decadal prediction system without

volcanic forcing”, American Geophysical Union Fall Meeting, virtual, 12/2021 (Talk).

“The Equatorial Pacific Cold Tongue Bias in CESM1 and its Influence on ENSO Forecasts”, American Geophysical Union Fall Meeting, virtual, 12/2021 (Poster).

“The Equatorial Pacific Cold Tongue Bias in CESM1 and its Influence on ENSO Forecasts”, CESM Working Group Meeting 2021, virtual, 02/2021 (Talk).

“Duration of El Niño and La Niña Events during 1954-2015”, American Geophysical Union Fall Meeting, virtual, 12/2020 (Talk).

“Two-year Predictions of ENSO event duration during 1954-2015”, CESM Workshop 2020, virtual, 06/2020 (Talk).

“Duration of El Niño and La Niña event: mechanisms and multiyear predictability”, Water, Climate, and Environmental Seminar Series, Austin, TX, 03/2020 (Talk).

“Two-year Predictions of ENSO event duration during 1954-2015”, American Geophysical Union Fall Meeting, San Francisco, CA, 12/2019 (Poster).

“Predictability of El Niño duration based on the onset timing”, American Geophysical Union Fall Meeting, San Francisco, CA, 12/2019 (Talk)

“Predictability of El Niño duration based on the onset timing”, UT Austin Institute for Geophysics Seminar Series, Austin, TX, 12/2019 (Talk).

“Predictability of El Niño duration in a coupled general circulation model”, American Meteorological Society 99th Annual Meeting, Phoenix, AZ. 01/2019 (Talk).

“What controls the duration of El Niño and La Niña events?”, American Meteorological Society 98th Annual Meeting, Austin, TX. 01/2018 (Talk).

“Impact of Interbasin Teleconnections on the Duration of El Niño and La Niña”, American Geophysical Union Fall Meeting, San Francisco, CA, 12/2016 (Poster)

Service

Associate Editor for *Journal of Climate*, 07/2023–present

Reviewer for *Advances in Climate Change Research*, *Bulletin of the American Meteorological Society*, *Climate Dynamics*, *Geophysical Research Letters*, *International Journal of Climatology*, *Journal of Climate*, *Journal of Geophysical Research: Atmospheres*, *Journal of Physical Oceanography*, *Nature*, *Nature Geoscience*, *Nature Climate Change*, *Nature Communications*, *Proceedings of the National Academy of Sciences*, *Science Bulletin*, *Science Advances*

NCAR ASP committee member, 2020–2023: writing club, seminar series

NOAA GFDL Internal reviewer, 2023–present

Teaching and Mentoring

Graduate Teaching Assistant, *GEO 302 Earth, Wind, and Fire*, UT Austin Spring 2018
 Conduct two 1.5-hour lab sessions weekly for ~40 students, including grading assignments, reviewing lectures, leading discussions, and advising hands-on tasks.

Cooperative Institute for Modeling the Earth System (CIMES) Summer Research Internships, Princeton University, Topic: [Understanding the Dynamics, Predictability, and Changes of Multiyear La Nina Events](#) Summer 2024 (upcoming)

Summer Schools

AOS Summer 2023 Workshop on paleo, present, and future: Leveraging the past to understand and predict our changing climate, Princeton, NJ, USA 08/2023
 ICTP Summer School on Theory, Mechanisms and Hierarchical Modeling of Climate Dynamics: Tropical Oceans, ENSO and their teleconnections, Trieste, Italy 08/2022
 Artificial Intelligence for Earth System Science Summer School, Boulder, CO, USA 06/2020
 Advanced Climate Dynamics Courses (Dynamics of the Seasonal Cycle), Norway 09/2017
 NCAR Community Earth System Model Tutorial, Boulder, CO, USA 08/2016

Outreach

Event Supervisor, UT Austin Science Olympiad Tournaments (Meteorology) 2018–2019
 K-12 STEM Outreach, Ford Elementary, Georgetown, Texas 2019
 Co-organize outreach activities on the 2014 World Meteorological Day, inform the public on air pollution facts and actions to reduce air pollution, Nanjing, China 2014

Computer Skills and Numerical Modeling

Programming Languages FORTRAN, NCAR Command Language, Python, Shell Script
 Numerical Modeling NCAR CESM, GFDL SPEAR
 System Windows, Mac OS, Unix/Linux

Professional Memberships

American Meteorological Society, American Geophysical Union
